Nomad Type Work & Communication Table  
“BIO TABLES IV” DEBUT***

ITOKI CO., LTD.(President: Akira Suzuki) is launching the “BIO TABLES IV” suitable for conference rooms and meetings.

Since its debut in 1988, the Bio Table line has increased its family to Type II and Type III and now, Type IV with functions of folding tabletop and height adjustment is coming on the market.

With an organic shape of tabletop that enables to keep an appropriate distance among each person, and by combining the triangular module extending horizontally with various table heights, this table meets with any communication style.

The table can create flexible and the best suitable work and communication environment for the small and the big meetings, standing and sitting works, mobile and collaboration works and so on.

◎ **Designer** / Isao Hosoe: Born 1942 in Tokyo. Went to Italy after graduated from Nihon University Graduate School (specialized in aerospace engineering). Based at Milan, he has been participating actively in the international design trade and awarded the Compasso d’Oro, the SMAU, ID Biennale at Ljubljana. Representative of Isao Hoseo Design Office.

◎ **Brand Name / “Bio Tables IV”**

The name originated from a living thing or a life. The table has a feature to control the senses of territory and distance and was named after its organic design image. The new item is the fourth of its line.

## PRODUCT OUTLINE

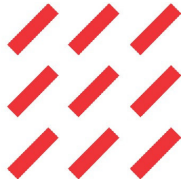

■ **Brand Name:** Bio Tables IV

■ **Launch:** Early 2005

■ **Specifications:** Top: Melamine surface, particleboard core, acrylic resin edge  
Base: Powder coated steel pipe, double-wheel urethane caster with lock

■ **Color:** Top: White W (glass fiber pattern), pale aqua blue, pale green and pale yellow (four variations)  
Base: Metallic silver (Z5)

■ **Function:** Pneumatic height adjustment of the top from h700mm to h980mm for domestic use and from h720mm to h1000mm for overseas use  
Folded tabletops can be stacked neatly with intervals of 295mm.  
A plate for magnetic hook and wiring hook is attached at the rear of the top as a standard.

## ■ FEATURES

Height can be adjusted for any working posture, from sitting to standing.

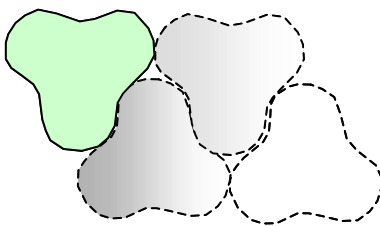

Needs only a small space for storing as well as easy to carry around in the office because of its folding and stacking functions.

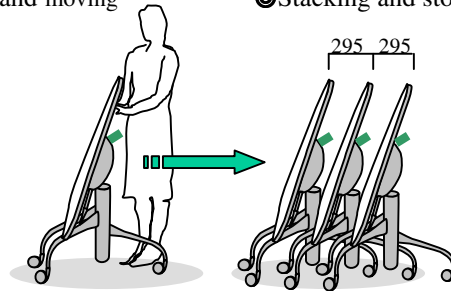

- PC work at standing
- Communication at standing
- PC work at sitting
- Communication at sitting

- Combining and extending

- ◎ Folding and moving

- ◎ Stacking and storing

With the height adjustment function and by combining any number of the triangular module to form an organic shape of the surface, Bio Tables IV can meet with personal work, group work, communication and collaboration work. The shape can be easily modified. The folding function enables an easy moving and needs less space for storing, leaving enough workspace in the office.
